

MINI HEAT DETECTOR **ISD-HD1**

Features:

Product Features:

- The Blaupunkt ISD-HD1 is a reliable and elegant heat detector which makes your home a safer place
- High Temperature Detection: The algorithm activates the alarm if the temperature reaches a temperature above 54 °C or when the temperature rises too quickly
- Elegant and small design $\varnothing = 5\text{cm}$
- 10 years of safety with the inbuilt 10 years long-life battery
- Reliable low battery warning
- Quick and easy installation in less than 5 min
- Especially recommended for kitchens where a smoke detector tends to create false alarms. It's also recommended to use the ISD-HD1 in hobby rooms, in the attic, cellar and garage

Technical Data:

- Power source: built-in DC3V(CR14250) Lithium battery (not replaceable)
- Power consumption: $<5\mu\text{A}$ (standby), $<160\text{mA}$ (alarm)
- Standby Battery lifespan 10 years
- Sound level 85dB (1 Meter)
- Do not disturb time: approx. 8-10 hours
- Silence time: approx. 10 minutes
- Functional temperature: 4°C-38°C
- Functional humidity: 10-95%
- Dimensions (W×H×D) 44*50*50mm
- Weight: 85g
