

## 5 in 1 | MULTI DETECTOR MD-S1

Exclusively for the Blaupunkt Q-Series

### Features:

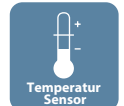

For Q Panel

For Indoor

Home Automation

Temperatur  
Sensor

Smoke and Heat  
Detector

Motion Detector

Indoor Siren

### Product Features:

- The perfect combination of **5 state of the art devices** in one **superior designed product**
  1. The high end reflective **photoelectric sensor to detect smoke**
  2. The built-in **temperature sensor** measures the ambient temperature and supports home automation
  3. The built-in **heat detector** detects a unnormal temperature increase and starts the alarm
  4. The built-in **PIR-activity sensor** detects movements and supports custom scene creation
  5. The best in class **indoor siren** in case of an intrusion alarm.
- Our powerfull sensors have a highly sophisticated auto calibration tool which provides you best in class accuracy
- The MD-S1 has one of the best sirens in the market with an output of 95dB at 1 meter

### Technical Data:

- Description: ZigBee Mini Smoke & Heat Detector
- Communication Protocol: ZigBee Pro Home Automation 1.2
- Frequency: 2.4 GHz
- Power Source: 3V, CR123A Lithium battery
- Battery Life: ~4.5 years
- Low Battery detection
- Siren Output: 95dB at 1 meter
- EN 14604 compliant
- Operating Temperature: -10°C to 45°C
- Operating Humidity: Up to 85% non-condensing
- Dimensions: 79.5mm x 79.5mm x 33.5mm
