Blaupunkt Competence Center Robotics has launched a product line of high quality Robotic vacuum cleaners. The Bluebot series contain a robot vacuum cleaner suitable for different market segments from entry-mid up to high-premium. Blaupunkt Robotics plays a key role in making our lives more comfortable and easy. In the years to come more smart robotic products will be developed that will bring a direct added value to our households. It helps us to create extra time for the things that we really enjoy in life!

While we are still decades away from a Jetsons-style future, the days of robots in our lives aren't far off. The purpose of robots is to work together with humans to do a better job or to automate tasks that: take humans too long to do, are too tedious, or are impossible for us to do.

- Changing lifestyle and growing inclination toward Automated cleaning fuels market
- Growing concerns about health and indoor air pollution propel sales
- Key market trends continue to push market growth
- New product launches set to sway the market
- In-house robot continues to dominate outdoor robot
- Europe remains the largest market, Middle East and Africa Emerges Faster

Annual shipments of consumer robots will increase from 6.6 million units in 2015 to 31.2 million units worldwide by 2020, with a cumulative total of 96.7 million consumer robots shipped during that period. Household robots will remain the largest segment.

Nearly 100 million consumer robots sold 2015 - 2020

BLUEBOT XEASY ROBOTIC

Vacuum Cleaner

Specifications

Product

Product name:	BLAUPUNKT BLUEBOT XEASY
Manufacturer's code:	BPK-VCBB1XE
Brand:	BLAUPUNKT
EAN:	8719689082024

Battery and docking station

Battery voltage:	range 100 - 240 V (2150 mAh Li-ion)
Charging station	
Automatic charge	
Automatic resume	
Charging time:	4 hours
Working time:	120 minutes on 1 battery charge

Cleaning and maintenance

Suitable for corners	
For pet hair	
Dust bin capacity:	0.5 litres
HEPA filter	
Noise level:	55 dB
Floor area:	120 m ²
Suitable for floor types:	Hard floors, low-pile carpet
Air outlet filter type:	HEPA anti-allergy filter

Navigation and demarcation

Navigation method:	Random Automatic (choice of 4 cleaning modes: auto, zigzag, spot and edge cleaning modes)
Type of area demarcation	Magnetic strip

Works with smartphone	

Control and setting options

Timer	
Drop sensors	
Collision/distance sensors	
Anti-jamming function	
Display: remote control	
Suitable for dark floors	
Suitable for doorsteps	
Maximum doorstep height:	1.2 cm

Physical features

Weight:	2.38 kg
Colour:	blue, black, white
Width:	33 cm
Depth:	33 cm
Height:	7.8 cm

Accessories

Accessories supplied	
Remote control with display + 2 batteries supplied	
Extra side brushes supplied	
Extra HEPA filter supplied	
Number of filters supplied:	3
Brush cleaner supplied	
Magnetic strip:	1

Advantages

- Thanks to the suction nozzle and rotating brush, this robot vacuum cleaner also removes pet hair.
- Easily set a cleaning schedule for the whole week using the app.
- If the battery runs low, the robot automatically returns to the charging station to recharge.
- You can use the remote control to drive the robot vacuum cleaner directly to dirty spots.
- With a low height of just 7.8 cm the robot vacuum cleaner can easily reach under furniture.

Description

The Blaupunkt Bluebot XEasy VCBB1XE is a small and easy to operate robot vacuum cleaner. Pressing the "MAX" button once increases the robot's suction power. Operate the robot with the ON/OFF button on the robot, the remote control or the very handy app which also allows you to set cleaning schedules for different days and times. With a low height of just 7.8 cm, this robot can reach under most furniture and even into corners with its two side brushes. Flat battery? The robot recharges itself automatically and automatically resumes cleaning if a cleaning schedule has been set.
