Brand history

1924 — A company named "Ideal" was first founded in Berlin when radio was still in its infancy. Every unit was carefully tested by technicians and labeled with a seal for quality — the blue dot. It did not take long before customers simply asked for the "bluepoint" products. The blue dot quickly became known as a symbol of outstanding quality.

1932 — The first car radio in the world was launched by Blaupunkt.

1938 — The dot became a trademark as well as the new company name: Blaupunkt.

1959 — The year 1959 saw the delivery of the one millionth car radio.

1971 — Ten million Blaupunkt car radios.

1974 — First car radio with traffic information receiver.

1979 — 25 million Blaupunkt car radios.

1982 — Prototype of first route guidance system.

1989 — World´s first mass production ready traffic navigation system.

1999 — Production of 100 milion Blaupunkt car radios.

2002 — First web-linked navigation system.

2007 — 75 years car radio.

2010 — Blaupunkt TV and Multiband Receivers became the first licensed product categories of the Blaupunkt Global Brand Community.

2012 — The product range of Blaupunkt was expanded to include additional product categories such as tablet computers, mobile navigation, audio and video and air conditioning.

2015 — Blaupunkt have been awarded as the "Brand of the century – German brand standards".

2016 — The product range of Blaupunkt was expanded to include additional product categories such as small household appliance.

Today — The Blaupunkt Global Brand Community is a growing community of independent brand partners covering almost every category of the consumer lifestyle all over the world.

Micro systems are devices which are enjoying unflagging popularity. Their small size and good-quality sound make them valued equipment for all kinds of office and residential interiors. They are ideally suitable for your bedroom as well as for your kids' room. Equipped with a CD drive, they will play both traditional audio CD's and MP3 files recorded on a recordable or a rewritable disc (CR-R/CD-RW). Thanks to the Bluetooth module, our equipment can play audio files stored in the memory of any mobile devices, such as smartphones, tablets and laptops. The built-in USB port allows you to connect all types of flash memories and play the saved files. The radio tuner with the Digital PLL Synthesis makes it possible to save in the memory your favourite FM radio stations, and the quick-search function allows you to directly choose the desired frequency, using the numeric keypad on the remote control. It helps to save time which would otherwise be wasted manually searching for the station you want.

MC200BT

The original Hi-Fi music center unit will meet the expectations of users who appreciate clear and dynamic sound, and want a device which combines high quality with modern design. Our Hi-Fi systems have the karaoke function, so you can throw a party at home and bring a lot of fun to both adults and children. Just start the karaoke backing track of your favourite song, grab the microphone, and become a true star! The built-in CD drive will allow you to play standard audio CD's as well as MP3 files stored on the CD-R and rewritable CD-RW discs, while the USB port can be used to play MP3 files saved on a flash drive. Our devices also feature an FM radio tuner with Digital PLL Synthesis and the ability to save your favourite radio stations into the memory, which means you do not have to each time go through all the frequencies in order to find the right one. Thanks to the Bluetooth connection module, music can be streamed from any smartphone, PC or a tablet equipped with this function. Less wires means greater convenience and a user-friendly approach. The modern design with changeable back lighting for the speakers will definitely make every teenager eager to have the system in his or her room, while adults will be happy to use the karaoke function when meeting with friends.

The Bluetooth loudspeakers are an inseparable element of social meetings at home or outdoors. They are also designed to improve the sound quality of your telephone or tablet. Whether you are a sports person, a party goer, or a student, you will certainly appreciate the clear sound coming from these compact loudspeakers. These devices also have a built-in Bluetooth module, which makes it possible to transmit music via the A2DP protocol from many mobile devices, such as smartphones, tablets and laptops, so you can play your favourite songs from your own music library, streaming services and radio stations available on the web. The speakers also have a built-in radio tuner, which can save in the memory your favourite FM radio stations, so you do not have to go through the whole frequency range to find your favourite programme. In the speakers' housing there is a slot for microSD cards, which makes it possible to play music files from them, and via the AUX socket it is possible to connect any external player.

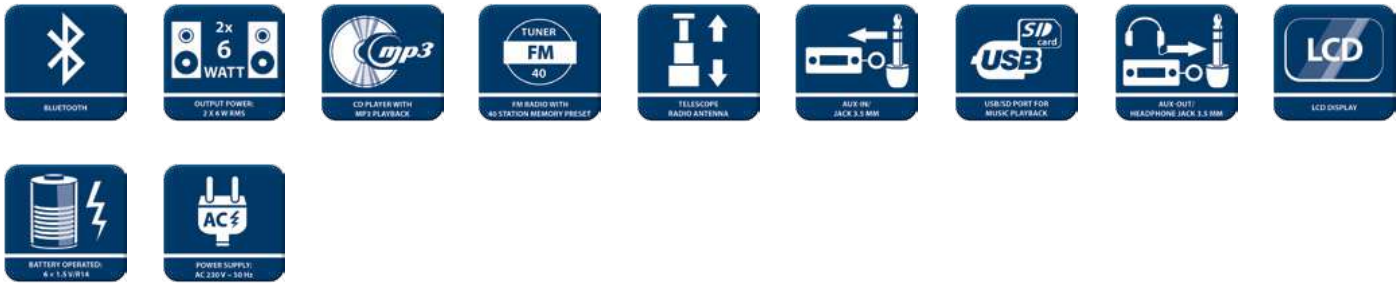
BB31LED/BB30BT



Our boomboxes are ideal for persons of any age. They are indispensable, both, in teaching rooms and in children's rooms. The products allow you to play CD's and your favourite music files via the USB port, and their FM radio tuner with a memory makes it possible to listen to your selected radio stations. Due to their small size and weight, they are extremely handy, and since they are battery powered, they are also portable. High functionality and simplicity of use make the boomboxes suitable for listening to audiobooks, but they can also serve as portable sources of entertainment for both children and adults.

PR10BL

These portable devices have a compact design, so you can easily take them anywhere. The radio players feature an FM tuner, and selected models also an AM one. Some have the option to save your favourite radio stations in the memory, so you do not have to go through the whole frequency range to find your favourite station. Telescopic antennas and top-quality components, always included in models offered under the Blaupunkt brand, guarantee excellent radio-signal reception and total reliability. The built-in speakers provide clear sound at the optimum volume. Thanks to the mini-jack output, you can also enjoy your music through headphones. In selected models, via the microSD and USB inputs, you can play music files using compatible media.
